Table of Content

Preface			1
1	Asset-Less, in the Digital Age		3
	1. Li	ke a hedge fund	3
	2. Th	e empty bank	4
	3. As	sset-less, brain heavy	6
	3. Bi	g, digital and dangerous	8
	4. Th	e age of digital intelligence	10
	5. W	hat is AI?	12
	6. No	ot for everybody	14
	7. A	serviceable definition of AI	15
	8. Cu	arious like a robot	17
	9. W	e have a dream (it could be a nightmare)	20
	10. A	singularity moment?	22
	11. Ev	rolution – revolution	23
	12. In	telligence explosion	25
	13. Qu	uantum leap	27
2	Bank I	like a Brain	31
	1. Bl	ockchain singularity	31
	2. In:	novation in blockchain	33
	3. It	is not (just) about Bitcoin	35
	4. A	blockchain-based monetary system	37
	5. A	bank explosion, bit by bit	39
	6. Er	nbracing change	41
	7. Re	configuration of value chains	42

	8. Neural networks and artificial synapsis	45
	9. Bank like a brain: beyond synapsis	48
3	From Synapsis to Singularity	51
	1. Singularity in payments	51
	2. A world of innovation	52
	3. Hold that block	54
	4. Follow the flow	56
	5. Singularity in bank funding	59
	6. Funding for clients	61
	7. Funding a dam on the Nile	63
	8. Singularity in lending	65
	9. Lend, if you can	67
	10. Borrow, if you cannot	70
	11. It is not just about lending	72
	12. Singularity in investment management	75
	13. The (artificially) intelligent investor	77
	14. Capitalism for everybody, powered by AI	79
	15. Wine and dine?	80
	16. Investing in the new "oil"	82
	17. The search for the AI Holy Grail	84
	18. Limitless "alpha"	87
	19. Ethical like a robot	89
	20. Singularity in risk management	91
	21. Risk as you like	93
	22. Risk à la (AI-based) carte	97
	23. A regulatory iceberg	100
	24. Singularity in insurance	103
	25. Fast digital innovation in InsurTech	106
	26. There is intelligence in claims	108
	27. Digital health	110
	28. There is intelligence in insurance	112
	29. Wellbeing management	115
4	Singularity, Front to Back	119
	1. Intelligence, front-to-back	119
	2. Singularity in product development	120
	3. Singularity in marketing: real estate and mortgages	122
	4. Singularity in marketing: intentions and life projects	126

	5. Singularity in strategy, planning and control	128
	6. Singularity in risk and finance	131
	7. Singularity in credit work out	135
	8. Singularity front to back and return	140
	9. Chatbots: as much as you can	142
	10. App and adopt	144
	11. AI at the back: managing costs	145
	12. Back office "à la carte"	147
	13. AI in the middle office	150
	14. AI ergo Cogito	152
	15. Barbarians at the (compliance) gate	154
	16. An AI-based trusted advisor	157
	17. AI in macroprudential and monetary policies	160
	18. Value chain reconfiguration: customers' behaviour	
	and credit underwriting	162
	19. Value chain reconfiguration: liquidity and cash flow	
	management	165
	20. Your cyborg CFO	167
	21. Your virtual blue-chip client	170
	22. A new equilibrium?	172
5	Runaway Transformation	175
	1. Runaway transformation	175
	2. Singularity job	177
	3. AI Big Brother: at work	180
	4. A fine line	183
	5. The rise of robots	185
	6. Helping hand	187
	7. All too human	189
	8. Titans of the brain	
		192
	9. AI: Chinese walls	192 194
	 9. AI: Chinese walls 10. Chinese takeover 	194
	 9. AI: Chinese walls 10. Chinese takeover 11. Compliance gates and regulatory arbitrages 	194 197
	 9. AI: Chinese walls 10. Chinese takeover 	194 197 199
	 AI: Chinese walls Chinese takeover Compliance gates and regulatory arbitrages Geopolitical singularity 	194 197 199 201
6	 9. AI: Chinese walls 10. Chinese takeover 11. Compliance gates and regulatory arbitrages 12. Geopolitical singularity 13. Face value 14. AI for the left behind 	194 197 199 201 203
6	 9. AI: Chinese walls 10. Chinese takeover 11. Compliance gates and regulatory arbitrages 12. Geopolitical singularity 13. Face value 14. AI for the left behind Leading the AI revolution 	194 197 199 201 203 206 211
6	 9. AI: Chinese walls 10. Chinese takeover 11. Compliance gates and regulatory arbitrages 12. Geopolitical singularity 13. Face value 14. AI for the left behind 	194 197 199 201 203 206

3.	If our home could think	216
4.	Runaway transformation at DBS	219
5.	Beyond banking at RBC	222
6.	New ventures to address new intentions	225
7.	CaixaBank: just imagine	228
8.	Just imagine	230
9.	Coffee and digital	232
10	. Overarching trade-off	234
11	. A shifting isoquant	237
12	. Future ready or heading for extinction?	240
13	. Tech is for biz (and not vice versa)	241
14	. Runaway transformation leader	244
15	. Elon bank	247
16	. Singularity bank: AGI powered, but with a human heart	257
17	. A polarized world of finance	260
18	. An unsteady state	262
19	. This is not the end	263
olio	graphy	267

Bibliography

Special thanks to Emiliano Rossi for his support in preparing the tables
